Ujjain Mahakumbh Hackathon – Round 2
Prototype Development – Submission Guidelines

Dear Participant,

We appreciate your continued efforts and participation in the Ujjain Mahakumbh Hackathon 2025.

Please carefully follow the submission guidelines for Round 2: Prototype Development.

All teams must submit the required documents separately.

Name of Files/Video should be like "TeamID_R2_Submission".

1. **Submissions include:**

   i. *Prototype Demonstration Video* – Upload to a cloud storage service (eg. Google Drive and make it Public) and provide a publicly accessible link.

   ii. *PPT* – Saved as PDF.

   iii. *README File* – Uploaded as README.txt.

   iv. *Code Repository Link* – Include your public GitHub/GitLab/Bitbucket repository link.

   1.1 Prototype Demonstration Video
   - Format: MP4 (Recommended)
   - Size: Up to 150 MB (compressed if needed)
   - Duration: 3 – 4 minutes

     Content Requirements:
   - Introduction of your team and idea (30 seconds)
   - Step-by-step demonstration of the working prototype
   - Highlight effectiveness and real-world application
   - Explain key features and functionalities

Tip: Ensure the video is well-lit, the audio is clear, and the screen recordings/demos are smooth.

   1.2 PPT (Saved as PDF)
   - Slides recommended: 6–8 slides covering:
   - Team Introduction – Topic and Names
   - Problem Statement – Problem being solved
   - Proposed Solution – Concept and uniqueness
   - Prototype Demo Screenshots – Key interfaces with labels
   - Technical Architecture diagram
   - Technology Stack – Tools, languages, frameworks used
   - Impact & Use Cases – Who benefits and how
   - Future Scope – Planned improvements or scalability

   1.3 README File (README.txt)
   - Length: 1 page
   - Refer to the Demo README File (Annexure-A)

1.4 Code Repository Link

- o Provide a public repository link (GitHub/GitLab/Bitbucket/etc).
- o Include instructions to run the prototype, if necessary.

2. Important Notes

- o Each team should submit only one version of each document/video.
- o Ensure your files are compressed and reasonably sized.
- o Submissions that do not follow the structure can be disqualified.
- o Keep backups of all files in case of upload errors.

We wish you the very best for Round 2: Prototype Development and look forward to your innovative and impactful solutions.

<u>Annexure</u>

A. Contents README File

Project Title – [Your Prototype Name]
Team ID : TH0000

1. Overview: [Brief description in 4–5 lines]

2. Problem & Solution

- • Problem Statement:
- • Solution:

3. Logic & Workflow (Eg.)

- • Data Collection:
- • Processing:
- • Output:
- • User Side:
- • Admin Side:

4. Tech Stack
Eg. React.js (Frontend), Node.js + Express (Backend), MongoDB (Database), Python (AI), Google Maps API, and Firebase.

5. Future Scope
Eg. The prototype can be scaled with advanced AI features, mobile app integration, and multi-user support for wider adoption.
